CARRIER OBJECTIVE:

To secure an entry-level Software Developer position where I can apply my skills in Python, ERPNext, Frappe Framework, Wordpress, HTML, CSS, and Linux environments to develop real-world software applications, contribute to scalable solutions, and grow as a developer while supporting organizational goals.

TECHNICAL SKILLS

- Programming Languages: Python, HTML, CSS, Basic JavaScript, Bootstrap
- ERP & Frameworks: ERPNext (v15), Frappe Framework
- CMS & Website Builders: WordPress, Elementor, ACF
- AI / ML & Computer Vision: TensorFlow, Keras, OpenCV, Scikit-learn, YOLO
- IoT Platforms: Raspberry Pi Pico, Arduino, Wokwi, Thonny
- Database: SQL (Basics)
- OS & Environment: Ubuntu 24.04, Windows Subsystem for Linux (WSL)
- Tools & IDEs: Git, GitHub, Streamlit, VS Code, Jupyter Notebook, Google Colab.

PROJECTS:

Frontend Web Development Projects:

- Developed multiple responsive websites using HTML, CSS, JavaScript, and Bootstrap
- Developed responsive websites (Portfolio, Ashkee Chocolate)
- Implemented UI design and JavaScript interactivity

Technologies: HTML, CSS, JavaScript, Bootstrap, Git, GitHub

WordPress Website Development:

- Developed 15+ WordPress websites using Elementor Pro, delivering responsive, dynamic pages
- Worked on real-world client projects including **IIT** and **Anna University** (Trichy) websites
- Customized UI using HTML, CSS, and JavaScript where required

Technologies: WordPress, Elementor Pro, ACF, HTML, CSS, JavaScript

Supermarket Stock Detection System:

- Built a computer vision system using YOLO and OpenCV to detect and count products
- Integrated IoT devices (Raspberry Pi Pico, ultrasonic sensors) for real-time stock tracking
- Developed Streamlit dashboard for live inventory and implemented IoT object detection

Technologies: Python, YOLO, OpenCV, Streamlit, Arduino, Raspberry Pi Pico

EXPERIENCE:

Software Developer (WordPress)

Innoblitz Technologies | Nov 2025 – Present

- Developing and customizing websites using WordPress.
- Building responsive web pages using Elementor.
- Working with HTML, CSS, and basic JavaScript for UI customization.

SOFT SKILLS:

- Strong problem-solving, analytical skills & team collaboration
- Adaptability and Quick Learner

EDUCATION:

BCA	CGPA-7.78
Sadakathullah Appa College Autonomous	2020 – 2023
HSC	82 %
Veeramamuniver RC Hr. Sec. School State Board	2019 – 2020

CERTIFICATION:

- Artificial intelligence A200-(TNskills)
- SQL Basics-(HackerRank)
- Enhancing soft skills and personality-NPTEL
